Regulations for Signs in Non-Residential Zoning Districts**

In using the table the following regulations apply:

- a. Lots are permitted both wall-mounted and freestanding signs up to the limits set forth in the table. With the exception of the signage allowed in Table Note 1, signage in multi-tenant facilities is counted as an alternative, not in addition, to permitted wall-mounted and freestanding signs.
- b. For wall-mounted signs the maximum sign area is for the lot, with the exception of the signage allowed in Table Note 1.
- c. For all other signs the maximum sign area is the maximum area per sign face, unless stated otherwise. For example, a two-sided, freestanding, ground sign in the BCE could be thirty square feet per face or sixty square feet total.
- d. The following abbreviations are used in the table: sf = square feet; lf = linear feet; bldg = building; " = inches.
- e. Important. The notes at the end of the table are as much a part of the law as the table itself.
