

Dear city council

I Agree that we should  
Allow chicken in Annapolis  
because in the Article it  
said eggs are high protein  
and help build muscle  
and are very nutritious  
and delicious. There's one  
more thing that came  
from article that said  
we can understand  
where our food comes  
from.

Sincerely Raul

Dear city council

I believe that chickens should

be allowed past April 9th. They

are very helpful in disciplinary

training in the chores you take

on when adopting them. They

are also very hard to let

go of us they are pets and

all pets create bonds. From

my personal experience I

know they are simple yet

loveable creatures plus they

can help people when

food isn't abundant because

they lay eggs,

I also think you should  
end the need for permits as  
do not make disturbances  
and the permits don't  
prove that people have the  
money required to support chickens.

I do know for a fact that  
dogs make more disturbances  
than chickens and don't  
require permits.

Sincerely,

Max M. Makovitch

Dear City Council

Yo creo que los Pollo deban  
de estar en la Ciudad Porque  
nos dan huevos y de los huevos  
nacen Pollos de la cual crecen  
y nos brinda su campo, para comestibles  
Proteínas, Las personas debe de hacer  
Pollos en las granjas para comer sus  
huevos y su carne.

Jeovany

La gallina puede estar en Anapoli. Esta bien porque de la gallina uno produce huevos y de los huevos nacen pollos y de los pollos salen mas huevos y se producen mas pollos. Y por eso quiero que arran.

Dear City Council,

I think people should be allowed  
to raise chickens in Annapolis  
because they look funny they  
sound funny they can have  
little chickens and those are  
gettin bigger those chickens  
give us eggs and we  
can eat and we live  
with that. Chicken are delicious  
and nutritious and they use  
those to make soup and we  
eat that to live, and that's why

I think people should be allowed to raise chickens

in Annapolis

Sincerely, Kevin D Guevara.

Wendy B. Sz-C.

Dear city council,

the chickens is one animal

with the people said with

is it the chickens with this

animal is one food for people

much people said with the chicken

is good food for people

is food for Happy's Birthdays oh

parags is one food the sup

good sup

Dear city council,

I do think people should be allowed to raise chickens in Annapolis. I do think people should be able to raise chickens in Annapolis because in the article from the Capital it said that chickens are part of the green movement that includes gardening and recycling. The article also said that those who have chickens are very happy with it.

Sincerely,  
Joana

Dear city council

I Think people should be allowed to raise Chickens Because chickens do no harm in a cage also you let people have Dogs and cats. A Dog can Attack and harm people and chicken can't harm people out of the or inside the cage and Chickens give us protein which is there eggs.

Sincerely  
from  
Jazah

Dear City Council

Will I think we should be allowed to have

chicken in Annapolis because a lot of

the people like to have animals in the house

I think we should be allowed

I think most people will like to have chickens

their house because they are pet the

house datwy

I think we should be able to have chicken.

Sincerely

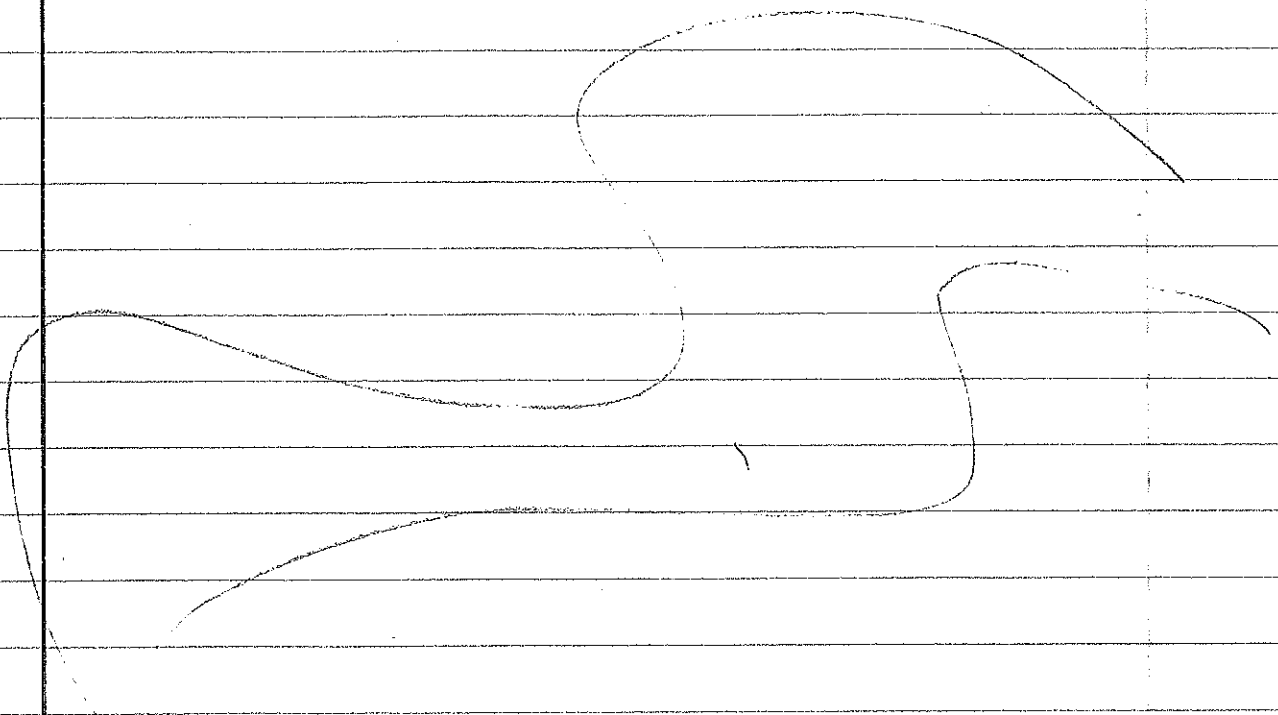

Reyna Baires Urrutia.

2-13-2015

Dear city Council,

I think it is okay to have  
chickens at home. It is good  
like chicken and eggs

Sincerely,  
Miguel

Dear City Council,

I think we should have chickens in Annapolis.

I think we should, because chickens can help your family understand where chickens comes from. Another reason why we should have chickens in Annapolis is, because if you have your own or your neighbor has a chicken then you can have eggs instead of buying them

Dear Mr. [Name],  
I hope you are well.  
I am writing to you regarding [Topic].

I am at the [Location] and [Action].  
Sincerely,  
Tina Sampson

I would like to [Action] [Topic].  
I am [Action] [Topic].

Dear City Council

I do think we should have chickens in Annapolis. I agree that people should have chickens because in the article it said those who have chickens are happy. Also in the article says Emma Makovitch learned to take care of animals at her grandmother's house in Salisbury. Please let everyone keep their chickens.

Sincerely  
Amira

Dear city council

I think people should have chickens  
because

because they give us eggs to eat  
and

and the eggs are healthy for you

and you don't have to go to the

store to get eggs because it wastes

gasoline It could teach you to

be responsible and it teaches you

how to take care of a pet

if you get one and that is why

we should have chickens

We should have chickens

Sincerely,

Anthony

Dear city council

I think chickens should be on the city because people who need eggs and they don't have money to buy eggs they can get eggs from their chickens.

Chickens are good for your body and it can get you

stronger because it got proteins

in it. Also chickens are not loud it makes a little sound then hit stop being loud and you

need to tell dogs to stop being loud

Since Manuf → it

Dear. city council,

I think we should have chickens in Annapolis.

because I love chickens

and I don't want them to

leave Annapolis. and my

personal experiences around

chickens they are quiet

they are not harmful and

they give me nutrients and

get eggs. I would want

to live near chickens because

there loving good animals.

Sincerely ~~Alaswah~~

Dear city council,

I think chickens should live

in Annapolis, because people

who have chickens are

happy. Some people love

their chickens so much they

never want to let them go

and that's how the Makovitch

family feels about their

two chickens. Some people in Annapolis

love chickens please don't take

chickens away from Annapolis.

Chickens make nutritious eggs

Sincerely,

Dear City Council,

I think people should be able to have chickens in annapolis. I think people should have chickens in annapol because in the article from the Capital says that chickens can teach you responsibility chickens are also a good teaching tool.

Chickens don't really make much noise.

I will teach someone who has or doesn't have a farm and wants one to take care of the animals. After a little bit of time you'll get use to the smell. But I do think

the person should have a permit.

Sincerely,  
Rajan, Hrubiv

Dear city council

I do think that you  
could be allowed to raise  
chickens in Annapolis. you can  
eat them and they are fun.

All the money you pay for  
them gets paid back in 5  
months. when I went to Max  
Mattonich's Home I could  
not smell them up close.

Sincerely  
JACK Torrey

Dear city council

I think we should have chickens in Annapolis.

Because we will have more eggs and food.

And some people want chickens for pet's and chicks.

Sincerely Trenton Diamond

Dear city council

First I do think people should be allowed

to raise chickens in Annapolis. I do

think people should be able to raise

chickens in Annapolis because in

the article from The Capitol it

said that the girl Emma has learned

responsibility because she has to

clean out the coop and collect eggs

and feed them. She also said that

they are nutritious and delicious.

The Capitol also said that Ms. Hughes

said her children know where their

food comes from and is not processed.

My friend has chickens and they  
are harmless and they don't make  
noise and they don't smell if you  
clean out the coop. They can't annoy  
anyone it is not like they are living  
with you and it is good to know  
where your food comes from. That is  
why we should have chickens in Annapolis.

Sincerely  
Lillian Wallace
