

U @ Murray Hill (4)

PETITION

Rationale: Residents of Uptown at Murray Hill are located in the MX Zoning District even though the development is entirely residential and all commercial use is prohibited. Because of the MX zoning those residents are prohibited from purchasing a Parking District 3 permit and face constant and escalating parking violation fines for parking in front of their homes and on adjoining streets. Those residents are further prohibited from purchasing guest/visitor passes and are therefore unable to have guests park and visit for longer than two hours during restricted parking times. As the streets adjacent to this development offer ample unused parking during restricted parking hours there is no reason to prohibit those residents from purchasing Zone 3 Parking permits.

As resident taxpayers, the residents of Uptown at Murray Hill deserve to be provided equal access to parking in the Zone 3 Parking District as are other residents of the district.

Petition: We, the undersigned residents of Uptown at Murray Hill as well as other residents of the City of Annapolis request that the City of Annapolis amend the City Code Chapter 12.32.170 to permit residents of Uptown at Murray Hill to purchase Zone 3 Parking permits and guest/visitor passes.
