Designating City-owned Land: Shiley Park

City-owned land consisting of approximately 1/18th of an acre exists at the eastern end of Shiley Street in West Annapolis. Care of this land has been adopted by the neighboring residents on Shiley Street for approximately eight years through the City's GreenScape Program. Since this area has functionally served as a passive park for eight years, the neighbors on Shiley Street desire for this land to be officially designated as a City park. A park dedication ceremony is being planned in conjunction with the 25th Anniversary of GreenScape on April 23, 2016.

Prepared by Michael Morris, Director, Recreation & Parks Department.
