

## FISCAL IMPACT NOTE

---

**Ordinance:** O-5-25

**Title:** Speed Monitoring Cameras

**Date:** February 4, 2025

---

This ordinance authorizes the implementation of speed monitoring systems within the City of Annapolis to ensure compliance with recent amendments to state law. While the addition of these systems is expected to generate increased revenue, the exact number of systems to be deployed is currently undetermined, and as such, the fiscal impact cannot be assessed at this time. Further, any revenue generated should decline over time as the cameras deter speeders.
