

Chartered 1708

Michael Pantelides, Mayor
160 Duke of Gloucester Street
Annapolis, MD 21401-2517
410-263-7997

December 21, 2015

To: Alderpersons, City of Annapolis

From: Mayor Michael Pantelides

Re: Transportation Board

Pending your approval, I would like to reappoint Christopher Aiken to the Transportation Board. Ms. Aiken has been serving on the board since 2010.

Mr. Christopher Aiken
225 Westwood Road
Annapolis, MD 21401
410-280-0036

A copy of his resume is attached.

Thank You.

Michael Pantelides

Cell: 301-938-1969

ManTech International, Falls Church, VA

Program Director & IT Policy, Enterprise Architecture, and Outreach Manager

9/04 – 9/07

As **Program Director**, provide dynamic leadership and support of large-scale projects encompassing more than 40 staff members and multiple budgets totaling \$25M+ among multiple staff charged with system development, enterprise architecture, data and telecommunications infrastructure operations, network security, business operations, and facilities management.

- * Ensure delivery of advanced systems engineering and telecommunications services to the Department of Defense Counterintelligence Field Activity (CIFA).
- * Assisted in capture of additional revenues through multiple Request for Proposal (RFP) opportunities by delivering relevant past performance, preparing specific technical requirements to match business objectives, conducting resume analysis for key contract positions, and developing effective contract management techniques.
- * Generated and presented contract performance reports to senior government leaders.
- * Provide team members with career counseling, administrative support, technical training, performance evaluations, and benefits/payroll management.

Contracted as an **IT Policy, Enterprise Architecture, and Outreach Manager** in support of CIFA, Office of Requirements and Management Branch, for multiple contractors in developing and executing IT policy administration; Enterprise Architecture (EA) for the Counterintelligence (CI) Community, and community outreach requirements.

- * Review, develop, staff, and distribute procedures for pertinent IT management principles, procedures, and practices used throughout CIFA. Using sound IT management experience and understanding of Federal IT regulatory requirements, established and administered an effective policy management process in CIFA and with the DoD CI community members.
- * Led the development of requirements needed to implement a CIFA and CI Community EA. This EA program incorporates, promotes, and documents CIFA IT portfolio requirements, investments, metrics, and performance to meet the Secretary of Defense's charge for sharing, integrating, and synchronizing DoD CI information among its members.
- * Developed a matrix that identifies DNI guidance, DoD strategic goals, CI requirements and capabilities, and supporting IT systems. This matrix ties existing systems used to achieve national CI objectives. Liaise with government leaders, staff, subcontractors, and vendors to effectively identify and address operational/tactical requirements and develop strategic vision to meet organization objectives.
- * Assisted in developing, coordinating, overseeing, and executing activities for the IT requirements associated with the DoD Investigative Agencies Base Alignment and Closure (BRAC) move to Quantico, VA in 2011. After reviewing BRAC regulatory requirements, developed a matrix of affected IT functions, systems, and procedures for possible integration opportunities, and cost savings. Prepared and submitted information papers and reports to senior decision makers; and, upon their guidance, execute BRAC redeployment actions.

Eagle Group LLC, Silver Spring, MD 20905

Information Assurance and Security Consultant

1/04 – 9/04

Reviewed and prepared a DoD Information Technology Security Certification and Accreditation Program (DITSCAP) System Security Authorization Agreement (SSAA) for an Army client's worldwide training portal.

- * Conducted a thorough review and documented existing security policies, procedures, and practices of the system architecture, system managers and users, and management efforts required to maintain an appropriate security posture for the system.
- * Identified the system requirements needed to acquire Army Networkiness Certification and acceptance into the Army Knowledge On-line (AKO) portal.
