

City of Annapolis City Council  
Committee & Commission Referral Action Report

Date: June 2, 2014

To: Jessica Cowles,  
City of Annapolis Office of Law,  
Legislative and Policy Analyst

The Maritime Advisory Board has reviewed the proposed Capital Improvement Budget as it relates to the floating dingy dock program and has taken the following action with respect to the proposed budget:

Favorable

Favorable with amendments

Unfavorable

No Action

Other

Comments: The Board offers the following comments.

Floating dingy docks provide a much-needed landing platform for visiting boaters to all areas of the City. Some are in relatively good condition, but many are non-existent or in such poor condition as to constitute a deterrent to use. There should continue to be an on-going program for inspection and installation/repair/maintenance of these facilities.
