Statement of interest – Why should you be appointed to this board/commission?

I have been involved with the Education Commission since 2006, when it was a committee. My six children attended schools in the Annapolis High feeder system, the youngest graduating in 2010. I volunteered in the schools for over 20 years, worked as a substitute teacher for several years, and taught Latin and held a position as a special ed teacher in math at Annapolis High School. I retired in 2019, as a speech-language pathologist, assigned to schools in the Southern and Annapolis clusters. I have been active in PTAs, and continue to be a member of Annapolis High PTSA. There are so many needs for our families and students in the Annapolis Cluster. This commission continues to not only identify issues, but more importantly seeks to provide viable solutions, thinking outside the box. With our county schools continuing to grow, it is important that our families have access to opportunities so that the children are given the best educational advantages possible, and our families feel supported. I see the Education Commission as a pathway to making this happen in partnership with the city of Annapolis, AACPS, and AA County. The Commission has come so far since committee days. Advocacy and activism are its charisms. Working with the Commissioners, in and out of scheduled meetings, is time well spent. I have served on many boards, such as Teachers Association (TAAAC) and Anne Arundel County Council of PTAs (AACCPA), and feel that the education commission is one of the most valuable.
