

FISCAL IMPACT NOTE

Ordinance: O-29-23

Title: Food Truck Parking and Mobile Food Service in the City of Annapolis

Date: October 5, 2023

This ordinance eliminates most restrictions on where food trucks may park in Annapolis and separates "Mobile Vendors" (non-food products sold from a vehicle) and "Mobile Food Service Vendors" (food trucks) into separate sections.

The Director of Planning and Zoning estimates that this may result in an additional five food trucks that would generate an additional \$1,750 of revenue per year. This will also require more inspections to ensure compliance with waste discharge. The time commitment is estimated at one inspector spending five hours per week on enforcement, which equates to a cost of \$6,500 per year. The increased inspection effort by existing staff will divert time from other inspection needs.
