

O-21-15

Staff Report

Nonstandard Vehicles Definition – For the purpose of amending the definition of Nonstandard Vehicles to include all such vehicles including pedicabs and for-hire Segways.

This legislation will expand the definition of Nonstandard Vehicles to include all for-hire vehicles including pedicabs and for-hire Segways pursuant to Section 12.54.010 of the Annapolis City Code.

The Transportation Board of the City of Annapolis voted unanimously at its January 28, 2015 meeting to recommend the Code of the City of Annapolis be amended to further strengthen the protections for established and abiding for-hire operators from outsiders wishing to operate illegally within the City limits. To that end, the Transportation Board recommends that the City Council adopt O-21-15 to incorporate pedicabs and for-hire Segways in the definition of nonstandard vehicles under Chapter 12.54 of the Annapolis City Code.
