

R-14-16
Major City Dock Special Event Parking Rules

Staff Report

This resolution will establish parking rules to be effective during Major City Dock Special Events. Upon the passage of O-16-14, which ordinance established Chapter 14.18 of the City Code governing Special Events, the parking policies for major events at City Dock that were previously established by the Director of Transportation were abrogated.

Due to confusion over parking policies among residents and businesses during recent major special events, it is clear that Special Event Rules are desirable in the vicinity of Prince George Street. The resolution creates residents parking only “RPO” blocks on Randall Street, East Street and Prince George Street up to the East Street intersection for events with more than 10,000 attendees per day. An additional block of Prince George Street, up to Maryland Ave, will be RPO when there are more than 20,000 attendees per day.

Recent research indicates that attendance at the Fall Boat Shows is somewhat above 10K/day while attendance at 4th of July events is above the 20K/day threshold. No other events have more than 10K visitors at City Dock.

Prepared by Alderman Budge.
