Legislation Title: Major City Dock Special Event Parking Rules

Description: For the purpose of establishing parking rules to be effective during Major City Dock Special Events.

Analysis of Fiscal Impact: In an effort to alleviate the parking demand on the residential communities within the downtown area during special events, this legislation creates residents parking only "RPO" blocks on Randall Street, East Street, and Prince George Street up to the East Street intersection for events with more than 10,000 attendees per day. An additional block of Prince George Street, up to Maryland Avenue, will be RPO when there are more than 20,000 attendees per day. Research has demonstrated that the Fall Boat Show is somewhat above 10,000 attendees per day, while attendance at the 4th of July events are above the 20,000 attendees per day.
