

FISCAL IMPACT NOTE

Resolution: R-36-25

Title: Fees for Clearing Snow and Ice from City Sidewalks

Date: September 2, 2025

This resolution establishes a fee schedule for the City of Annapolis to recover the cost of clearing snow and ice from sidewalks when private property owners fail to do so, as authorized by O-6-25. The fee schedule is tiered by sidewalk length and is intended to recoup or offset City costs associated with deploying Public Works staff and equipment for snow and ice removal on privately maintained sidewalks. The fiscal impact is unable to be determined as we cannot estimate how many property owners will violate or comply with removal.
