* RMS YTD numbers are *not* UCR numbers. The following reasons are why numbers will be slightly off

- 1) UCR accounts for unfounded incidents in closed years/months by subtracting from the current month whereas these counts reflect unfounded incidents in the month / year that they were reported
- 2) In a few cases, RMS may have multiple reports for an incident that UCR counts once or vice versa

Note: RMS Counts for Robbery are now the same as UCR (e.g. does not take into account victims, but is based on incidents)
