

STAFF REPORT ON PROPOSED LEGISLATION

To: Mayor Gavin Buckley
From: David Jarrell, City Manager
Date: May 18, 2021
Subject: O-17-21: Public Services – Water and Sewer

This ordinance applies only to water and sewer customers who live outside the City. It will remove the requirement that water service customers and/or sewer service customers residing outside the City shall make annual payments to the City in the amount of the real property taxes that would be imposed if the property were in the City. This required these customers to make full payment of their property tax levy to Anne Arundel County, and to also make payment of their property tax levy calculated using the City's tax rate to the City of Annapolis.

For these outside the City customers, no other changes are being proposed to the charge for water service, which is triple the usage rates that are charged to users within the City, or sewer service, which is double the rates that are charged to users within the City.

Prepared by David Jarrell, City Manager
