

FARMUNITY
YOU GROW. WE GROW
A NON-PROFIT 501C3
ORGANIZATION

WHO ARE WE?

FarmUnity a non profit 501 c3 100% volunteer based organization aims to reconnect people with the incredible magic of growing food

Farmunity is a non Profit that connects two important threads that are in short supply today.

Farm - Going back to nature and earth and soil, and understanding and appreciating the only home humanity has ever known is critical in a world that is fighting climate change.

Unity - In a world that is drunk on polarisation in politics, life, media and everything else, there is a desperate need for threads that binds us. Growing food together can be that catalyst.

We built vegetable / pollinator gardens in Libraries/Schools to achieve the above mission.

OUR STORY

Our journey started with approximately 4000 sq. ft. of land at Crofton Library.

We believe that everyone, regardless of their background or experience, can benefit from growing their own food and connecting with nature.

Today, we have three gardens in School and library are expanding our gardens to local elementary and high schools.

we've donated over 600 LBS of produce to local charity **and we're just getting started**

We started with around 10 volunteers, today we have more than 200 volunteers (from 7 to 70 year old)

OUR PARTNERS

Technical

- **University of Maryland**
- Anne Arundel Schools
- Phoenix Academy Annapolis and North County High school

Volunteers

- Various private and public schools

Corporate / non profit and other organization
