

FISCAL IMPACT NOTE

Ordinance/Resolution: O-28-23/R-51-23

Title: City Noise Prohibitions and Enforcement

Date: September 20, 2023

The referenced ordinance bans gas-powered leaf blowers and high-frequency sound in residential districts and sets parameters for measuring noise from boats on the water. The accompanying resolution increases the fines for repeat or continuous noise violations from \$100 to \$200.

According to the Police Department, they have not issued any noise violations or received fine revenue in the past few years. Typically, officers respond and individuals respond appropriately. Therefore, we are unsure how much additional revenue, if any this could generate for the City. The cost of one Dispatcher and two Officers per call is approximately \$40.
