

FISCAL IMPACT NOTE

Resolution: R-44-19

Title: Transit Development Plan

Date: January 12, 2020

This resolution approves Department of Transportation's Five-Year Transit Development Plan (TDP). The TDP provides a framework for identifying transit needs within the City over the next five years and provides recommended service approaches to meet the identified needs.

The TDP outlines a financial plan for operations on page 5-15. The TDP plays an important role in the Maryland Transit Authority's (MTA) annual process of awarding transit grants, and programs and services for which the City receives grant funds typically must be identified in the TDP. Funding for any programs or services is subject to appropriation authority in the budget adopted by the City Council.
