

Hello Alderwoman Pindell Charles,

I live in your ward on Ritchie Lane. My business is in Ward One and Ward Three.

Our business relies on the circulator to get tourists moving around our city. The Circulator is instrumental in the following ways:

- It gives tourists a way to see what the whole town looks like, and then pick different neighborhoods to explore.
- It eases traffic and the need to find parking close by.
- Promotes a healthy, lifestyle. People will start walking more while they wait for the Circulator.
- Free services advertised to tourists make it sound like a welcoming city.
- Circulators are all over the country now, and they are doing great work. We need to give this Circulator a chance to be used and counted on.

As a homeowner and resident in Ward Three, I will walk to the Westin and hop on the Circulator to go downtown. Our neighbors do the same thing. This allows more tourists into the town to park and move about town and spend their money.

The Circulator has become a huge part of the way of life for so many people, and the tourists really like it. Please do not stop the Circulator's operation.
