PLANNING COMMISSION

(410)263-7961

145 GORMAN STREET, 3RD FLOOR
ANNAPOLIS, MARYLAND 21401

March 31, 2014

To: Mayor and City Council
From: Planning Commission
Re: Capital Improvement Program 2014-2019 Revision

At the Planning Commission's regularly scheduled meeting on March 6, 2014, the Acting City Manager and Assistant Police Chief presented their proposal to revise the Capital Improvement Program for 2014-2019 to include a new project and funding for the reconstruction of the firing range at the police headquarters facility on Taylor Avenue. According to the presenters, the renovations of the facility completed in recent years did not include any improvements to the firing range in their scope. Presently, the firing range no longer meets the standards recognized by the law enforcement community and its equipment is obsolete, failing and no longer in commercial production. As a result, the City is incurring additional expenses for police officers having to travel to firing ranges in other jurisdictions to complete their mandatory marksmanship training.

Upon completion of the presentation and questions from the commissioners, the Chair opened the public hearing. No individuals spoke regarding this proposal.

At the conclusion of deliberations, the commissioners voted 5 – 0 to recommend in favor of the proposal.

Adopted this 3rd day of April, 2014

Bill Herald, Chair
