

**O-10-18**

**Police Advisory Board**

**Staff Report**

This ordinance establishes the Police Advisory Board and sets the Board's scope of authority.

In 2017, the Annapolis Police Department moved to a community policing strategy. A community policing strategy involves the Annapolis Police Department becoming more transparent by including the public to participate in a number of events and discussions. To increase public input and increase the amount of information disseminated to the public, the Police Chief wants to create a Police Advisory Board.

Prepared by Scott Baker, Chief, Annapolis Police Department
