To: City Clerk; City Manager; Office of Law

Subject: JP Towing License Renewal

JP has been licensed for several years as required under City Code 7.52.060. At the time of JP's initial request, APD determined there were two business locations, one in the City, one in the County. At that time, JP was given dispensation to do business in the City by the Administration following review by City Law Department and possible council approval.

APD herewith provides our investigative finding that discloses possible variation from the Code. That said, I neither recommend nor disapprove JP's Towing License Application, but instead forward to Office of Law to make a determination of compliance under 7.52.060 and inform the City manager and Police Chief.

Respectfully,

Michael Prjstoop
Chief of Police
