Harbormaster Delegates Enforcement Authority Regarding Fee Payment at City Park Boat Launch

This ordinance is intended to allow the Harbormaster to delegate enforcement authority at City boat ramps related to payment of launch fees. Currently Truxton Park is the only City boat ramp that charges launch fees through a credit card machine that customers may use to pay the fee to launch a boat. We are updating this payment method to an electronic method of payment via phone application. This ordinance would permit the City's currently contracted parking management agent to warn, cite and tow those persons that launch a boat at Truxton that failed to pay the required fee.
