

Office of Emergency Management Mission

Statement

The City of Annapolis Office of Emergency Management provides vision, direction, and subject matter expertise in order to coordinate the City's all hazards emergency preparedness, response, recovery and mitigation efforts and develop an overall culture of safety.

Office of Emergency Management City Charter

Article VI, Section 13 of the City Charter Establishes the Office of Emergency Management Department (July 30, 2019)

Appoints a Director of Emergency Management

Director must have Bachelor's Degree and 5 Years Experience in Emergency Management, Public Safety, Public Health or Public Administration

Perform Duties and Functions Recommended by the Maryland Department of Emergency Management

Office of Emergency Management

City Code Section 11.48.060

Director's Duties:

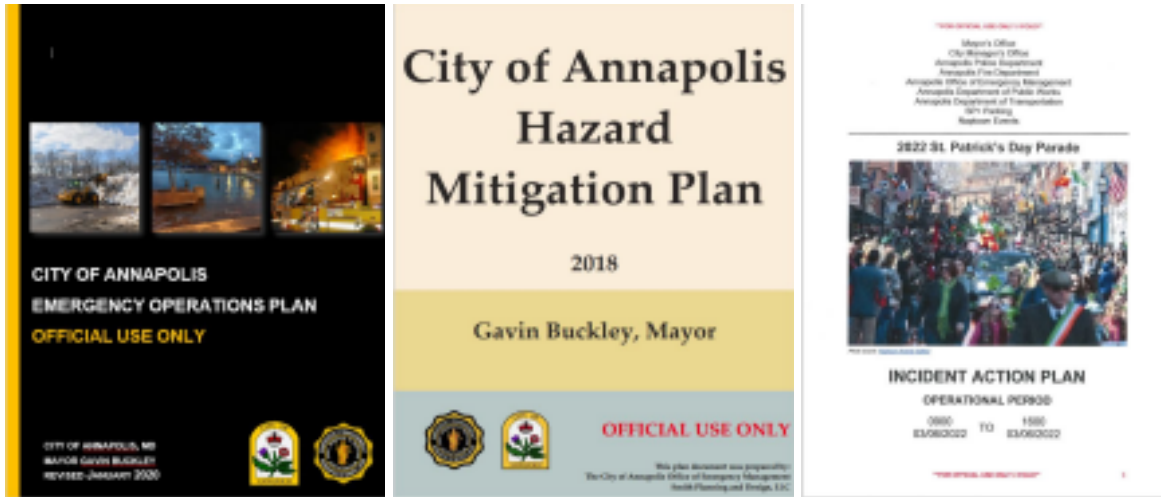

- Coordinating the City of Annapolis Emergency Management Program ●
Emergency Planning Process
- Coordinating Damage Assessments
- Advising and Informing Local Officials
- Public Awareness and Education
- Annual Exercises and Training
- Homeland Security Grants

Office of Emergency Management ***City Code Section 11.48.060***

“City department directors, senior staff, and the City Council shall collaborate with the Director of the Office of Emergency Management in the

development and implementation of local emergency plans”

Office of Emergency Management History

Early 2000's through 2004 the Office of Domestic Preparedness resided in APD.

The Office of Domestic Preparedness was a precursor to the current Office of Emergency Management.

APD Police Lieutenant Gary Simpson served as the Commander of the Office of Domestic Preparedness Unit.

Office of Emergency Management History

During the Mayor Ellen Moyer Administration, OEM was established as a stand alone Office.

From 2004 through 2010, Retired Fire Chief Edward Sherlock served as

Director.

Office of Emergency Management History

In 2010, under Mayor Josh Cohen, OEM went into the Annapolis Fire Department. Then, Deputy Fire Chief Kevin Simmons became Director.

In 2012, OEM took on Risk Management duties and a name change:

Emergency Preparedness and Risk Management (EPARM)

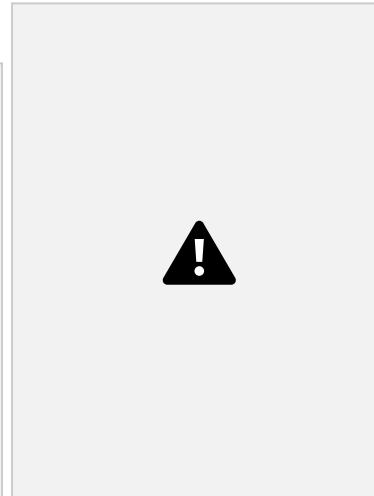

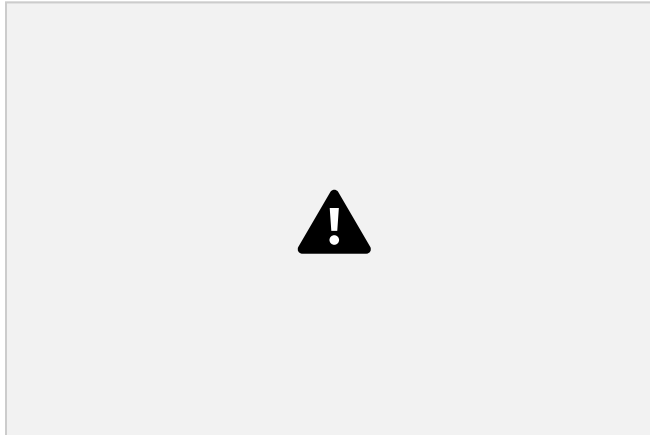

In 2014, the Mayor Mike Pantelides administration relieved EPARM of Risk Management duties. Went back to OEM designation.

Office of Emergency Management History

In 2019, the Annapolis City Council voted unanimously to create the Office of Emergency Management Department, a stand alone City Department.

Former Deputy Fire Chief Kevin J. Simmons named as Director.

Average Annual Grants 2010-present: **\$1,503,117.29**

PUBLIC SAFETY GRANTS

Total

Public Safety Grants 2010-present:
\$11,418,083.51

MITIGATION GRANTS OVERVIEW

Total Mitigation Grants 2015-present:
\$6,619,323.91

EMERGENCY MANAGEMENT SUPPORTS MAJOR ANNAPOLIS MITIGATION PROJECTS

- Emergency Management created the Hazard Mitigation

Working

Group to coordinate major mitigation projects across City Departments.

- Emergency Management has been awarded a total of \$6,489,273.91 in federal and state grant funding for the Compromise Street pumping station project that Public Works is developing.

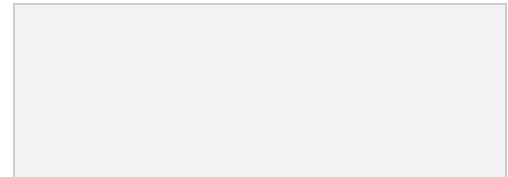

Major City Dock grant applications include:

- January 2021: \$1.75M grant application to the Economic Development Administration (EDA) of the U.S. Commerce Department (denied)
- February 2022: \$3M to the Maryland Department of the Environment (MDE), (submitted and pending review)
- February 2022: \$5M to the MDE (submitted and pending review)
- March 2022: \$3.19M grant application to the EDA (submitted and pending review)
- Spring 2022: \$15-30M to the Federal Emergency Management Agency (in development)

City of Annapolis Hazard Mitigation Plan

- The Plan's purpose is to reduce the loss of life and property, human suffering, economic disruption and disaster assistance costs resulting from natural disasters.

- The Plan analyzes the risks of various natural hazards and prioritizes mitigation actions to prevent future losses.
- Emergency Management updates the Plan every five years. The current plan expires on March 18, 2023. OEM has secured a FEMA grant through the FY20 Building Resilient Infrastructure and Communities (BRIC) Grant Program to update this plan.
- **Bottom Line: OEM maintains this Plan using grants at no cost to the City which enables eligibility for larger amounts of grant funding, such as the recent \$3.4M FEMA grant for Compromise Street and Public Assistance funding after a disaster.**

Trever Watkins, Emergency Management Grants Specialist

- Joined OEM May 13, 2021.
- Graduated from Towson University with a Bachelor of Science degree in Psychology.

- Annapolis Native.
- Stanton Center Winter Relief Program Manager.
- Cooling Center Manager.

How Homeland Security Grants Help Public Safety

The Homeland Security Grants assist the City of Annapolis in preventing, protecting, mitigating, responding and recovering from acts of terrorism and other threats. These grants, covering about 80 active project numbers in MUNIS, fund a range of preparedness activities that help the City plan, purchase equipment, train, exercise, and manage City resources.

These Homeland Security Grants, which on average total about \$1M per fiscal year, save the city tons of money on major expenses across all of the Departments. The amount of money awarded in grants is more than Emergency

Management costs the City.

OEM's Homeland Security Grants Support Public Safety

Annapolis Police Department

Selected Projects Receiving Funds:

- CCTV cameras covering critical infrastructure
- Training and Education
- Mobile Command Unit purchase and upgrades
- Officer Equipment
- Ballistic glass windows for City Hall

- Preparedness
- Protection
- Mitigation
- Response
- Recovery

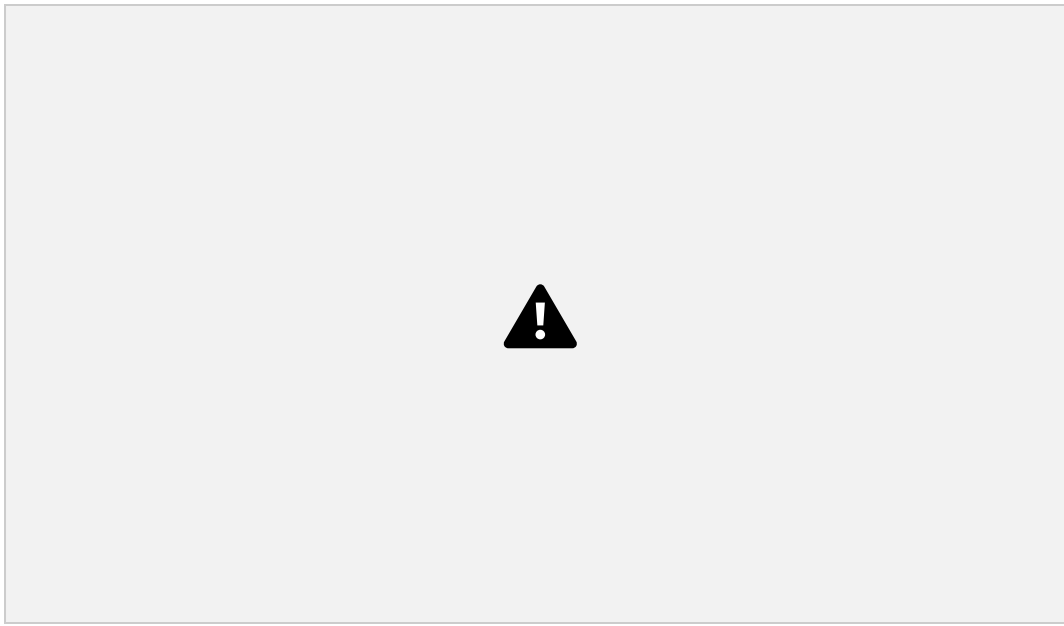

Chris Meyd, Emergency Management Planner  • Joined OEM
on September 1, 2021.

- Graduated from University of Maryland Global Campus in Summer 2021 with a Bachelor of Science degree in Homeland Security and a minor in Communications Studies.

- Earned his Associate of Applied Science degree in Homeland Security Management and a Certificate in Law Enforcement & Criminal Justice from Anne Arundel Community College.
- Currently enrolled in the Master of Public Administration program at American Military University with a concentration in Disaster Management.
- Member of the International Association of Emergency Managers (IAEM) pursuing his Associate Emergency Manager (AEM) designation.
- Born and raised in Anne Arundel County, an active volunteer within the community, and happily married to his husband Tim of 5 years.

Fall 2021 Major Incidents & Recovery Initiatives

September 1, 2021 October 29, 2021

Remnants of Tropical Storm Ida - Annapolis Tornado

Impacts and Damage Assessments

Over 100 homes and businesses affected -

- 5 destroyed
- 29 major damage (25 condemned)
- 46 minor damage
- 37 people initially displaced

Over \$7.1 million in structural property damage.

Over \$3.8 million in business economic loss.

OEM completed damage assessment tours with

- Gov. Hogan, Mayor Buckley, Ald. Pindell
Charles, City Leadership, County Executive.
- Joint PDA with FEMA, SBA, and AACo officials.
- Additional tours with SBA and DHCD representatives.

Parole Impacts

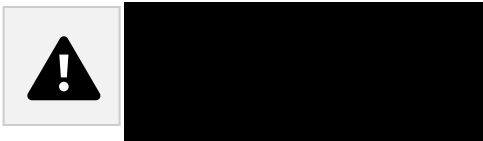

More than 90% of all properties impacted by the tornado were in Ward

- . 1 Church
- . 1 Health Center
- . 43 Subsidized Housing Households
- . 26 Retired (seniors) Households
- . 11 Households (non-seniors)
- . 3 Unknown

83% of all affected households are residing in either subsidized housing or are retired seniors.

Immediate Recovery

Initiatives

. Community Resource Center & Town Hall .

Community cleanup events

• City provided neighborhood dumpsters & supplies •

City corrective tree-action agreements

• Blessed in Tech donations management

(\$9,000) • Tzu Chi direct financial relief event

(\$30,000)

State & Federal Recovery

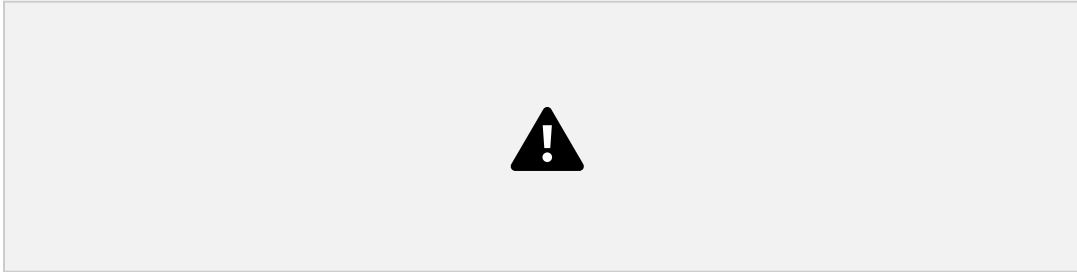

Process

- Submitted Impact Statement Form to Maryland Dept. of Emergency Management (MDEM) detailing incident damage assessment and impacts.
- MDEM compiled City of Annapolis, Anne Arundel County, and Cecil County impact statements to request a Presidential Disaster Declaration.
- Received support from the Maryland Congressional Delegation. •

Denied President Disaster Declaration.

- Worked with MDEM to then request an SBA Disaster Declaration which was granted.
- Formed Action Committee of Annapolis, AACo, and District 30a officials to petition Governor Hogan and the Department of Housing and Community Development (DHCD) to activate State disaster relief programs.
- Gov. Hogan directed \$4 million to activate DHCD disaster programs.

Federal Recovery Program

SBA Disaster Loan Outreach Center opened on Riva Road.

Federal Recovery Program

SBA disaster loan activity data for Anne Arundel County due to the remnants of Tropical Storm Ida from Aug. 31 through Sept. 4, 2021, in Maryland.

Through Feb. 1, 2022, SBA approved 7 loans in Anne Arundel County, including City of Annapolis, for the amount of \$477,600 and a total of 28 loans for a total of \$1,361,500.

	MD 17229 /17230	Anne Arundel County/	# MD 17229/17230 Total	Approved dollars

State Recovery Programs

\$4 million directed to DHCD disaster programs for the City of Annapolis, AACo, & Cecil Co.

Obtaining Grants in lieu of Loans

DHCD Grants

City Council approved State Grants for:

- International Market, LLC
- Chris's Charcoal Pit House
- KA Annapolis Holdings, LLC - Kiddie Academy
- JCARS LLC - Tucker Automotive

OEM still works with DHCD daily to overcome DHCD policy obstacles related to these grants.

- Application processing concerns
- Removing income limits
- Notifying residents with updates

Severe Coastal Flooding - October 2021

- Fourth highest flooding incident in City's recorded history.
- Flood levels extended over a 48 hour period.

- Extensive road closures in the downtown and Eastport areas.
- Significant water damage to the Annapolis

um estimated

• 26 residential properties surveyed with little to no damage.

- 11 commercial businesses surveyed with some minor physical damage.
- Heavy economic loss to businesses during busy Halloween weekend.

Tale of Two Emergencies

EF-2 Tornado 9/2/21 Severe Coastal Flooding 10/29/21

- \$4 Million directed to DHCD.
- Only \$200,000 in business grants

- **Over \$10 Million in estimated damage & injury.** ●

Mainly low income residents and West St businesses impacted.

- Local Emergency Disaster Declaration Issued. ●

State Declaration Not Declared.

- Denied Federal Declaration.
- SBA Loans made available.

- Minor physical damage reported,
(except Annapolis Maritime Museum).

- Major impact was significant loss of business revenue over busy holiday weekend.
- Local Emergency Disaster Declaration Issued. • **State Disaster Declaration Issued.** • Incident did not

State Legislative Action

Response

Bills proposed in both the House and Senate of the Maryland General Assembly

- Delegates Jones, Henson, & Watson
- Senator Elfreth, Hester, Gallion, Guzzone, & Hershey

- The proposed legislation calls for the SMWOB account to expand eligibility of certain State grants when a local state of emergency is declared without a state deceleration.
- The bills also include provisions which would allow for nonprofit organizations to be included in the eligibility of

- qualify for SBA loans. • Immediate VOLT Fund Grants made available up to \$50,000 for Businesses.
- **Funds have already been released.** ○ Nonprofit organizations excluded.

these grants which they are currently restricted from.

OEM provided written testimony to the MGA testifying in support of both bills.

The bills are currently moving through committee and are expected to receive a favorable recommendation.

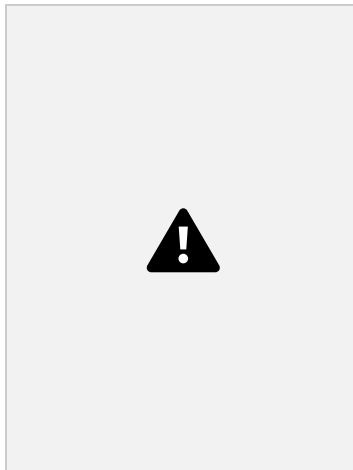

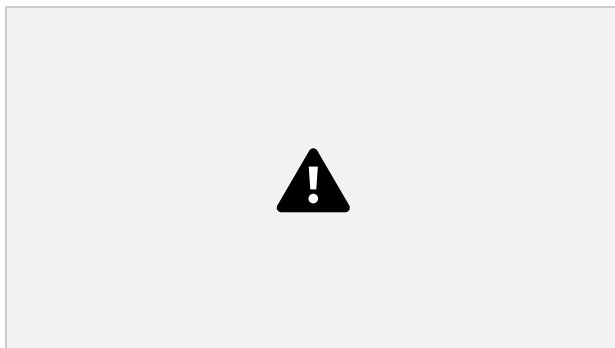

Nicole Reibert

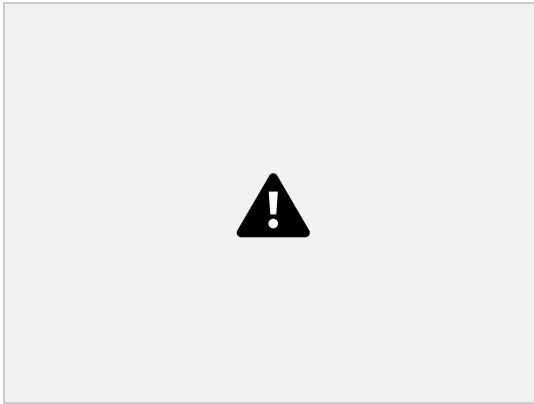

Nicole Reibert, Training, Exercise, & Community Outreach Coordinator

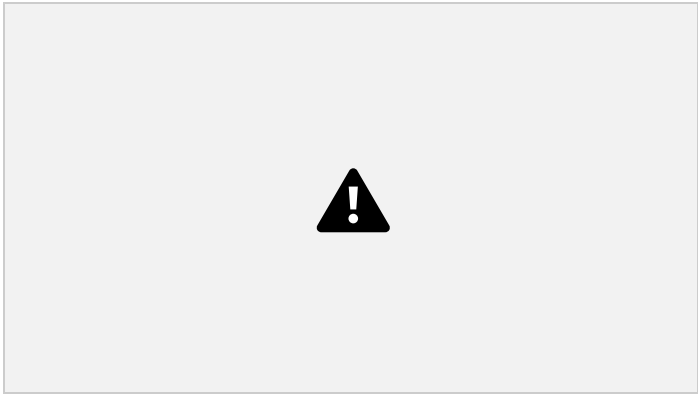

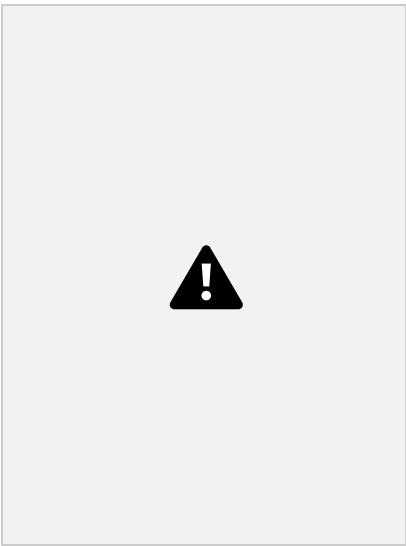

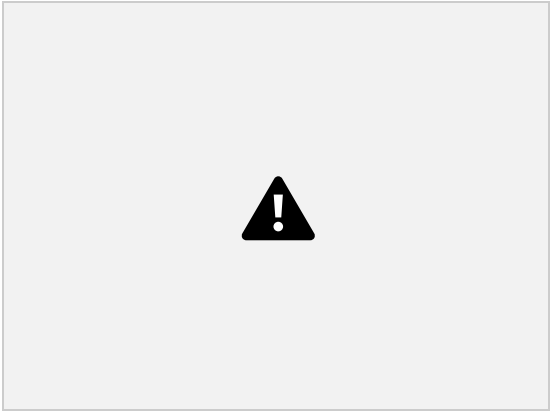

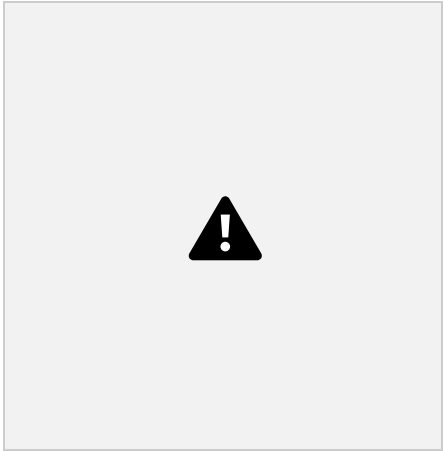

- Graduated from George Mason University in 2017 with a BA in Global Affairs with a concentration in Human Security and a minor in Intelligence Analysis.
- Originally from Virginia Beach. Moved to the area in 2017.
- Previously lived in various parts of California and Tampa, Florida.
- Passionate about education and community outreach.

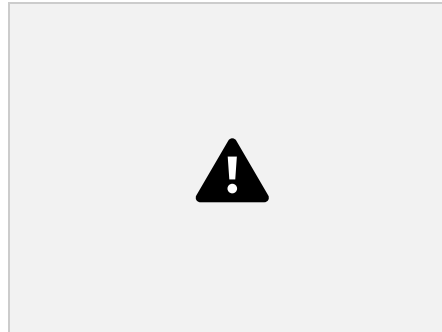

Outreach

In the past year, OEM has participated in the following outreach events in our community:

- Vaccine/test Kit distribution
- Hurricane preparedness for seniors
- Tornado preparedness community presentation
- Character Counts
- National Night Out
- El Día de los Muertos
- Kunta Kinte Heritage Festival
- Unity Day (various locations)
- Family Fun Day NSA Annapolis
- Resource Day (various locations)

Outreach

OEM is actively

engaged in outreach in all of the City's wards.

Outreach gives us the ability to not only educate the community on preparedness but also to build relationships with our citizens.

The more we actively engage with our residents the more likely they are to be prepared for emergencies and reach out to us to receive information on assistance.

Outreach

Alert Annapolis delivers messages directly to our residents. When they sign up, they are able to select how they would like to receive messages. We are also able to contact residents and visitors in specific geographic locations in the event of an emergency.

PrepareMe Annapolis is an app from OEM that will send alerts to residents with

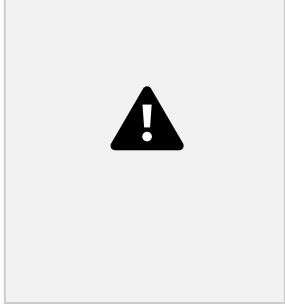

Exercise

City code 11.48.060 Section C Number 7.

Dam 135

The City of Annapolis is required to exercise the Dam 135 Emergency Action Plan whenever there are changes made to the plan.

OEM will facilitate a tabletop exercise in partnership with Public Works.

Participants will include OEM, Public Works, AFD, APD,
and Anne Arundel County OEM.

Aerial view of Dam #135

Annapolis Call Center Training

The JIC (Joint Information Center) is an essential part of the Emergency Operations Center. When the JIC is activated, volunteers are called to the the EOC. These volunteers consist of employees and members of the general public. These volunteers help to reduce the amount of calls received by police dispatch.

In October of 2020, OEM held a Call Taker refresher for those who signed up as volunteers. Volunteers answered mock calls and responded to the “constituents” appropriately.

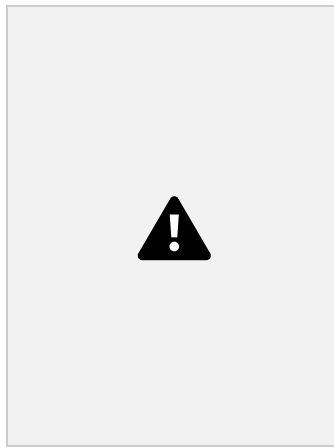

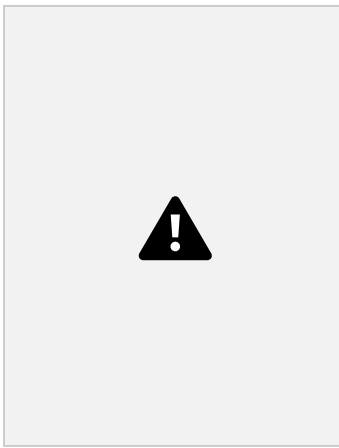

Emergency Operations Plan

The Emergency Operations Plan (EOP) is the backbone of the City's response to an emergency. The EOP contains information on how the City will respond to emergencies in various capacities.

This plan was last updated in 2020. Due to the pandemic, we were unable to exercise it when it was finalized. On December 10, 2021 we held our citywide exercise and EOP review. Directors and stakeholders from all departments were in the Emergency Operations Center (EOC) being briefed on updates to the plan.

Incident Command System (ICS)

Homeland Security Presidential Directive 5 (HSPD-5)

After the attacks on September 11, 2001, President George W. Bush issued HSPD-5 in February 2003.

HSPD-5 established a National Incident Management System (NIMS) to identify steps for improved coordination between federal, state, and local government and described how these agencies will prepare for such a response.

NIMS requires the use of ICS.

NIMS requires the adoption of ICS as a condition of receiving Federal preparedness funding.

Incident Command System (ICS)

By utilizing best practices, ICS ensures the efficient use of resources, safety of all involved, and achievement of response objectives.

ICS is based on decades of best practices and lessons learned.

ICS saves lives!

Incident Command System (ICS)

When has ICS been used?

- Special events & parades in the City
- September 1 Tornado
- Graduation & Commissioning week
- Winter Storms
- Flooding
- COVID-19 test kit giveaways
 - COVID-19 vaccine clinics

Incident Command System (ICS)

Incident Command System (ICS) is a standardized approach to the command, control, and coordination of emergency response. It is an essential component of the National Incident Management System (NIMS).

Many of these courses are available for free online.

ICS 100 - Introduction to the ICS

IS 700 - NIMS, an Introduction

ICS 200 - Basic Incident Command System for Initial Response

IS 800 - National Response Framework (NRF), an Introduction

ICS 300 - Intermediate ICS for Expanding Incidents

ICS 400 - Advanced ICS

- 5 days

- 79 nights

- Referrals: 856

- 73 during the day

- 864 during nights

Winter Relief Program at Stanton Center

OEM's partnership with the Lighthouse Shelter:

- In FY22 the operating budget allowed for \$7,950.00 which allows for the Stanton Center to open about 46 nights during the winter season.
- Additionally, Lighthouse shelter partnered with the City of Annapolis providing up to an additional \$15,000.00.
 - This allowed the City to open up at 32 degrees (with windchill) as opposed to 25 degrees (with windchill).

- With this additional money the warming center was able to open an additional 38 times to date (original budget allowed for 46 openings)
- For FY23, OEM has requested additional funds in the operating budget that will give the Winter Relief a budget of \$16,000 to help keep up operations at this rate.

Substance Use Disorder - ODFree Dashboard

- 31.8% ██████████ in all overdose incidents (198 v 135).
- ████████ ████████ overdose numbers in the past 6 years (2016 = 122).

BUSINESS RECOVERY

- Beginning in March 2020, Emergency Management has moderated meetings of the COVID-19 Business Recovery Team, which include the Mayor and City Manager.
- The meetings continue to this day as the City navigates the COVID-19 environment as it relates to the business community.
- The meetings provide a forum where senior City leadership, the business community, and City staff all come together to develop innovative solutions such as business recovery zones with outdoor dining areas.
- Emergency Management has also brought in the Annapolis & Anne Arundel County Community Emergency Response Team to promote safety downtown. These gatherings have helped keep the City safe while supporting our business community

Thank You!
