

STAFF REPORT ON PROPOSED LEGISLATION

To: Mayor Gavin Buckley

From: David Jarrell, City Manager

Date: October 9, 2020

Subject: O-42-20: Emergency Medical Services

This ordinance modifies the Annapolis Emergency Medical Services program by adding provisions for “treatment” in addition to “transport” of patients. Currently, the program addresses only ambulance transport in Code Section 6.28.020 – Financial arrangements. The proposed change will allow billing for treatment if the patient isn’t transported.
