Administrative Issues

City Licenses and Inspections

- City staff began forwarding licenses by unit on 10/3/2022. Status below.
 - Morris H. Blum - Final inspection - 8/24/2022, Licenses issued - 10/3/2022, License expires on 11/1/2022
 - Eastport/Harbour House- Final inspection - 8/12/2022, Licenses issued - 10/3/2022, License expires on 02/1/2023
- *Note - Instead of issuing the one-year license as requested, the City has issued the license for less than one year and by the abbreviated license period denied HACA the ability to use the license to collect rents and forced HACA to begin the licensing process again immediately.*
- City fines against HACA are still addressed through the courts, mediation process has not been finalized.
- City staff has declined enforcing provisions of the City Code that address requirements of occupants and tenants to improve and balance the enforcement process.
- City has condemned 7 units in the past 4 months, requiring temporary relocation of residents.

Legal Issues

Johnson and Fisher Cases

- HACCA is still denied insurance coverage for the Johnson Case and must use its very limited, non-restricted operational revenue for litigation purposes. These funds are used to repair our homes, maintain our properties and staff our operations. Litigation costs hamper our efforts and increase our financial strain.
- HACCA has ongoing concerns with impact of City filed litigation on our partnership, and ability to pursue future Choice Neighborhood Implementation Grant of \$50 million to redevelop Eastport Terrace/Harbour House.

Legal Issues, cont.

- City further jeopardizes HACA as a legal entity by asking the District Court in both Third-Party complaints against HUD in *Johnson* (filed 10/14/22), and *Fisher* (filed 10/17/22) for HUD to place HACA under receivership.

“G. Direct HUD to place HACA under an administrative receivership pursuant to 42 U.S.C. 1437d, or, alternatively, place HACA under judicial receivership, in order to conduct the affairs of the Housing Authority of the City of Annapolis in a manner consistent with statutory, regulatory, and contractual obligations of the Housing Authority of the City of Annapolis and in accordance with any additional terms and conditions the Court may provide;”

Legal Issues, cont.

Although the City requests HACCA be placed under HUD receivership, which in effect requests HUD to put HACCA under new leadership, the City cites no criticism of current leadership such that receivership will only serve to create change and upset the progress and continuity we have worked the past couple of years to create since the *White* consent decrees. The City should understand receivership does not amount to additional funding for HACCA, just different oversight and increased administrative requirements and costs.
