Ward One Board of Directors is specifically concerned about the haste of tonight's legislation before clear, signed and scaled documents of the Spa Creek harborline are distributed to the Public as this effects both sides of the Creek. We support due diligence and public say in this and all legislation.
Petition -- October 29, 2016

Against the proposed harbor line change at the South Annapolis Yachting Center

TO: The Annapolis City Mayor, The Annapolis City Council and The Annapolis Port Wardens.

We the undersigned have reviewed the proposed Harbor Line Change requested by The South Annapolis Yachting Center (SAYC). Petitioners are residents of Annapolis.

We are concerned about the proposed harbor line change. It is not in our best interest or is in the interest of the safety of vessels and persons transiting the already too narrow channel between the SAYC Docks and the Old Amie Gay Docks. We request that you postpone approving this change until the actual marina plans are submitted and approved by the appropriate authorities. We request you make sure that City Ordinance 15.18.80 is addressed when reviewing the SAYC marina plan documents. The docks need to be setback to not allow SAYC now or in the future to violate the Harbor Line and Ordinance 15.18.80. ("T" heads as explained below are setback off the harbor line to assure large beam vessels /length of vessels, will not intrude into or past the harbor line). We request you not approve a change in the harbor line until such plans meet all the requirements of 15.18.80.

CITY ORDINANCE 15.18.80: "ALL PIERS, "T" HEADS "L" HEADS, MOORING PILES, MOORING BOUYS AND ANCHORAGES MUST BE SET BACK FROM THE HARBOR LINE AND APPROPRIATE DISTANCE TO ASSURE THAT NO MOORED VESSEL OR PERMANENT OR TEMPORARY OBSTRUCTION EXTENDS CHNNELWARD BEYOND THE HARBOR LINE."

We are further concerned with some of the wording in 15.18.80: "Appropriate Distance". Some vessels have beams such -- 48 Aquila catamarans beam is 23+ft; 57 Lagoon catamaran beam is 29.98 ft; 43 ft. mooring catamaran beam is 22" ft. These dimensions need to be taken into consideration when approving the Marina plans.

We are hopeful you will help protect the safety of all those who use Spa Creek. Thank you.

Thank you,
Ward One Residents Association

I agree to the petition - Against the proposed harbor line change at the South Annapolis Yachting Center

Cara Visconti

caravisconti@hotmail.com

PS - they are ALSO attempting to gain approval for facilities to handle food and beverage service for boaters. This is, in my opinion, the start of their attempt to eventually have a restaurant at that location. Their original intent was a restaurant with OUTDOOR seating, which in turn will invite outdoor entertainment. They also originally wanted hourly docking. Fast forward - Loud music, loud boats, boats mooring all over Spa Creek, marine traffic is not an ideal scenario for Ward One residents. Noise travels across the water. I'm not an alarmist - I've been tracking this project for close to a year. I'm getting concerned the developers continue to push P&Z...another Crystal Spring fiasco.... money is there, they will continue to push.

We agree with the petition!

We live at Olde Towne Marina, directly across from South Annapolis YC, and on a busy weekend there is barely enough space for boats going to and from the bridge along with kayakers and paddle boarders. It is truly a choke point in the traffic flow of the creek.
