Adequate Public Facilities- Adequate School Facilities Standards

Staff Report

This ordinance proposes to amend the Adequate School Facilities Standards requirement under Title 22 Adequate Public Facilities. The proposed ordinance establishes a lower threshold for school utilization standards. Currently, the standard does not permit project approvals in any Elementary or Middle school that is or projected to be within 3 years over 105% of the State rated capacity or High Schools that is or projected to be within 3 years over 120% of the State rated capacity. The proposed legislation will not permit project approvals in any Elementary, Middle or High School that is or projected to be within 3 years 95% of the State rated Capacity.
