

FISCAL IMPACT NOTE

Resolution: R-42-20

Title: Small Cell Systems – Fines

Date: July 22, 2020

This resolution modifies the FY2021 Fines Schedule by establishing a fine of \$100/day for small cell systems that violate the provisions established in O-29-20. It also amends the Code references in the Fines Schedule to reflect the sections established in O-29-20. We cannot predict how many small cell systems will be fined and, therefore, cannot determine the fiscal impact.
