

FISCAL IMPACT NOTE

Ordinance: R-56-20

Title: Emergency Medical Services - Fees

Date: October 23, 2020

This resolution travels with O-42-20, Emergency Medical Services, to modify the fees schedule for the changes discussed in the ordinance and adding the \$10 mileage fee. The Fire department is currently charging the \$10 mileage fee but it was missing from the fee schedule adopted by the City Council via R-26-20. As noted in the fiscal note for the companion ordinance, the City should collect a minimum of \$350 for each basic life support (BLS) and advanced life support (ALS) treatment.
