Chapter 21.72 - TERMS AND DEFINITIONS

Section 21.72.010 - Terms.

- A. Construction. In the construction of this Zoning Code, the rules and definitions contained in this chapter shall be observed and applied, except when the context clearly indicates otherwise.
- B. Definitions. Except as provided for elsewhere in this Zoning Code, terms used in this Zoning Code shall have the definition provided in any standard dictionary, unless specifically defined below or in any other provision of this Zoning Code.
- C. Generic Definitions.
 - 1. Purpose of Generic Definitions. Certain terms in this chapter are defined to be inclusive of many uses in order to eliminate overly detailed listings of uses in the zoning districts established by this title. These terms are referred to in this title as "generic" definitions. Examples of generic definitions used in this title are "retail goods establishment," "amusement establishment" and "light manufacturing."

2. Components of Generic Definitions. A generic definition has three components: (1) a brief listing of examples of uses intended to be included within the scope of the definition; (2) an identification (where appropriate) of certain uses which are not meant to be included by the term; and (3) a statement that for the purposes of each zoning district, any other uses specifically listed within the particular zoning district shall not be construed as falling within the generic definition.
3. Uses Not Listed or Not Within Scope of Generic Definition. A use which is not specifically listed in a zoning district, or which does not fall within a generic definition as defined in this chapter, or as interpreted by the Director of Planning and Zoning pursuant to Chapter 21.16 is prohibited.

D. Terms.
