Title 21-PLANNING AND ZONING
Division II – ADMINISTRATION AND ENFORCEMENT
Chapter 21.20 – ZONING DISTRICT BOUNDARY ADJUSTMENTS

Section 21.20.030 – Review criteria and findings

The Board of Appeals may grant a zoning district boundary adjustment based upon the following findings:

- A. Unique Conditions. Owing to conditions peculiar to the property and not because of any action taken by the applicant, a literal enforcement of the zoning law would result in practical difficulty as specified in the zoning law.
- B. Public Welfare and Safety. The granting of the district boundary adjustment will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located.
- C. Surrounding Properties. If a specific use is proposed, the applicant shall demonstrate that the proposed use will not impair an adequate supply of light and air to adjacent property, or substantially increase the congestion of the public streets, or increase the danger of fire, or endanger the public safety, or substantially diminish or impair property values with the neighborhood. If a specific use is not proposed, the applicant shall demonstrate the suitability of the property in question to the uses permitted under the proposed zoning classification.
- D. Property Size. The granting of a zoning district boundary adjustment shall be limited to parcels of one acre or less in size.
- ~~E. Location. The zoning district boundary adjustment is for a property located in Ward 8.~~
