

FISCAL IMPACT NOTE

Resolution: R-33-25

Title: Speed Monitoring System Fines

Date: September 2, 2025

This resolution updates the FY 2026 City of Annapolis Fines Schedule for Speed Monitoring Systems, in alignment with House Bill 182, which repealed the former \$40 cap on speed camera fines and established a tiered fine structure based on the severity of the speed offense. 2024 data provided by RedSpeed, based on the City's existing sites, illustrates a high volume of speed violations. Based on the study results summarized below, the City could initially anticipate additional annual fine revenue of approximately \$64,340. This calculation is based on FY24 violation data, without consideration of realized decrease in violations with passage of time.

2024 data from Red Speed				
Exceeding the Speed Limit By	Maximum Penalty	Difference above \$40	Total Incidents	Additional Penalty Revenue
12-15mph	\$ 40	\$ -	8,345	\$ -
16-19 mph	\$ 70	\$ 30	1,910	\$ 57,300
20-29 mph	\$ 120	\$ 80	88	\$ 7,040
30-39 mph	\$ 230	\$ 190	-	\$ -
40 or more mph	\$ 425		-	\$ -
Total			10,343	\$ 64,340
